

## CHARLES L. CAMPBELL, PhD, PMP®, PMI-PBA®

### BIOGRAPHICAL NOTES

Dr. Charles (Chuck) Campbell joined our team of professional instructors 2013. He has many years of experience in program and project management as a practitioner, trainer, and educator. Dr. Campbell helped clients develop and execute strategies to establish, improve, and sustain the effective and efficient management of programs and projects. His clients included U.S. Department of Defense systems acquisition program managers, as well as numerous organizations in business and industry.

Chuck has over thirty years of experience in organizational program and project management, including training and education. His program and project management experience spanned many disciplines during his career; such as systems integration, logistics engineering, contract administration, training, and education. An example of a typical assignment on which Dr. Campbell served was as the program manager representative for the Logistics Modernization Program (LMP) at the Anniston Army Depot in Alabama. The LMP was one of the most successful Enterprise Resource Planning (ERP) implementations within the U.S. Army; it was managed by the U.S. Army Program Executive Office - Enterprise Information Systems (PEO-EIS), of which Dr. Campbell was a member.

Dr. Campbell earned a B.A. in Computer Information Systems, magna cum laude, from Saint Leo College; an M.B.A. in Information Systems from Golden Gate University; and a Ph.D. in Information Technology with a Specialization in Education from Capella University. He holds the Project Management Professional (PMP®) and Professional in Business Analysis (PMI-PBA®) credentials from the Project Management Institute and the Project+ credential from CompTIA. Chuck is also a corporate-certified Lean Six Sigma Green Belt (LSSGB)

The courses that Dr. Campbell teaches include Project Planning and Control (The Foundations of Project Management); PMI® PMP and CAPM Exam Preparation, Managing Agile Projects, Determining Business Requirements, Data Gathering and Elicitation Techniques, Project Communications, Project Risk Management, Project Management for Non-Technical Team Members, Using Microsoft Project for Effective Project Management, Project Negotiations and Vendor Management, Project Procurement Management, and various information systems courses. Recently, in collaboration with key clients, Chuck successfully led our Agile project of transitioning several courses to virtual delivery. With respect to our Agile course specifically, he also incorporated a thorough course overhaul, with the purpose of aligning with the most current industry trends, practices and approaches to Agile Methodologies.

During his career Dr. Campbell held numerous positions within the program and project management disciplines in both government and industry. Those positions included active duty military service (U.S. Navy Submarine Service); U.S. Federal Civil Service (U.S. Navy); and as a contracted program and project management consultant to all U.S. military branches (Air Force, Army, Navy, Marines). In the performance of his duties to the U.S. Department of Defense, Chuck served as a program and project management consultant for several consulting firms including the IBM Federal Systems

Division; Tracor Applied Sciences; American Management Systems; Booz Allen Hamilton; Andruilis Research Corporation; RGII Technologies, Inc.; BearingPoint, Inc.; and Deloitte Consulting.

Representative of organizations for which Dr. Campbell has provided training and education include: American Tire Distributors, AvidXchange, Atrium Health, Catawba Valley Community College, Central Piedmont Community College, Family Dollar, HSM Solutions Industries, Invue Security, Lowe's Companies, Inc., MetLife, Newell Rubbermaid, MSC Industrial Supply Company, Megadyne, Siemens Energy, Inc., Time Warner Cable/Spectrum; and several non-profit organizations (for example, he served in a functional leadership role in the Education Department of a large, denominational church with a weekly average of 300 students in 14 classes, pre-school to adults).

Dr. Campbell served as Vice President of Professional Development for the PMI Southern Maryland Chapter, where he established and enhanced PMP Exam Prep courses and study groups. He was a volunteer instructor for the PMI-Metrolina Chapter in Charlotte, North Carolina, where he taught PMP Exam Prep Courses for PMP exam candidates. Dr. Campbell was a volunteer member of the team that updated the PMI Organizational Project Management Maturity Model (OPM3), Second Edition.

In his leisure time, Chuck enjoys rummaging through dusty archives as an avid genealogy researcher. Chuck and his wife reside in Monroe, North Carolina. They are the proud parents of two daughters; grandparents of seven granddaughters; and caretakers of three very energetic Jack Russell terriers.
